*Always in our Hearts*

At **Furever Remembered**, we know that your pet is a beloved part of the family. Whether their death comes unexpectedly or after the course of a long illness, the death of a pet is never easy.

**Furever Remembered** is here to offer assistance in your time of loss by providing compassionate and ethical after-life care of your pet. We deeply understand the importance of honoring the life of your pet in a meaningful way. All our cremation services are provided with dignity and respect at an affordable fee. Furever Remembered offers cremation options for companion animals, typically dogs, cats and small animals. Cremains that are returned to owners will be secured in a temporary urn, thereby allowing you to later choose the correct size, shape and style of permanent memorial such as decorative urn, piece of artwork, garden stone, plant or piece of jewelry best suited to memorialize your pet.

### PRIVATE CREMATION

When you choose **private cremation**, your pet will be the only one in the cremation chamber during the cremation process. When the process is complete, the cremains are placed into a secure temporary urn for your retrieval.

### PARTITIONED CREMATION

Our **partitioned cremation** is a procedure during which more than one pet's body is present in the cremation chamber, each pet being separated from one another. This way, you can be confident you'll receive only the cremains of your pet, secure in a temporary urn.

### COMMUNAL CREMATION

A **communal cremation** offers a dignified, yet more cost effective option. With communal cremation, your pet is placed into the crematory together with other pets. Once the cremation is complete, staff arranges for disposition of all cremains in an honorable manner.
